

# Frontend Developer Resume

Name: John Doe

Email: johndoe@example.com

Phone: (123) 456-7890

Portfolio: <https://johndoe.dev>

GitHub: <https://github.com/johndoe>

LinkedIn: <https://linkedin.com/in/johndoe>

## Summary

Frontend Developer with expertise in building scalable and high-performance web applications.

Proficient in React, Next.js, Vite, and modern UI libraries like Shadcn UI.

Experienced in writing unit, integration, and E2E tests to ensure application reliability.

Passionate about performance optimization and user experience.

## Skills

- Frontend: React, Next.js, Vite, TypeScript, JavaScript, Astro
- Styling: Tailwind CSS, Radix UI, Shadcn UI, MJML (email templates)
- State Management: React Hook Form, Context API
- Testing: Unit, Integration, E2E (Playwright, Jest, Vitest)
- Build Tools: Webpack, Vite, Husky, release-please (automated versioning)
- Version Control: Git, GitHub
- Other Tools: Storybook, Active Campaign (email testing), Drizzle ORM

## Experience

Frontend Developer - [Company Name] (YYYY - Present)

- Developed and maintained React-based applications with Next.js and TypeScript.
- Integrated Shadcn UI and Radix UI for an enhanced user experience.
- Implemented unit, integration, and E2E testing strategies to improve software reliability.
- Optimized Webpack and Vite configurations for faster builds and performance improvements.
- Automated deployment processes using release-please and Husky.

Frontend Developer (Freelance & Side Projects) - (YYYY - Present)

- Built a SaaS application for mood-based travel and food recommendations using Next.js.
- Developed a design system (Graphene) with Vite, Webpack, and custom build scripts.
- Created and tested responsive email templates with MJML, optimized for multiple clients.

## Projects

### SaaS Travel App (MVP)

- Developed a travel recommendation system based on user mood, preferences, and budget.
- Used Next.js, Drizzle ORM, and an alternative to Google Maps for geolocation services.
- Integrated an email notification system for trip details.

### Graphene Design System

- Developed a component library using Vite and Webpack.
- Implemented CSS theming and modular styles.
- Configured build pipelines for UMD distribution.

## Education

[Your Degree] - [Your University] (YYYY - YYYY)

## Certifications & Courses

- Frontend Development Course - Udemy (Instructor: [Your Name], if applicable)
- Advanced JavaScript & TypeScript - [Platform Name]
- Testing with Playwright and Jest - [Platform Name]

## Additional Information

- Passionate about AI tools like ChatGPT, Claude, and Pieces for Developers.
- Contributor to open-source projects and active in the frontend developer community.
- Experienced with Astro for static site generation.
